MAINTAIN YOUR COMPETITIVE EDGE WITH VEEBOARD

WHY DO YOU NEED EDGE PROTECTION?

Stop complaints, claims and lost orders.

VEEBOARD is a low cost, highly effective way to protect your product during storage or transit. By preventing packs from movement, even collapse, or damage to vulnerable edges and corners, VEEBOARD stops customer complaints, cuts down rejections, reduces claims, and prevents lost orders.

Better protection and improved image.

Clean, lightweight, and easy to use, VEEBOARD improves your Company image and shows customers that you care. You can even have the top surface printed with your Company name, slogan, or logo, *free of charge*.

Ideal for stacking and stretchwrap systems.

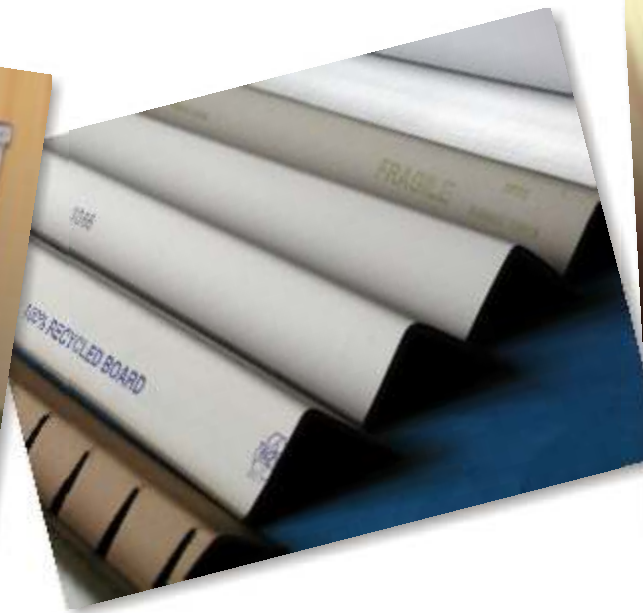

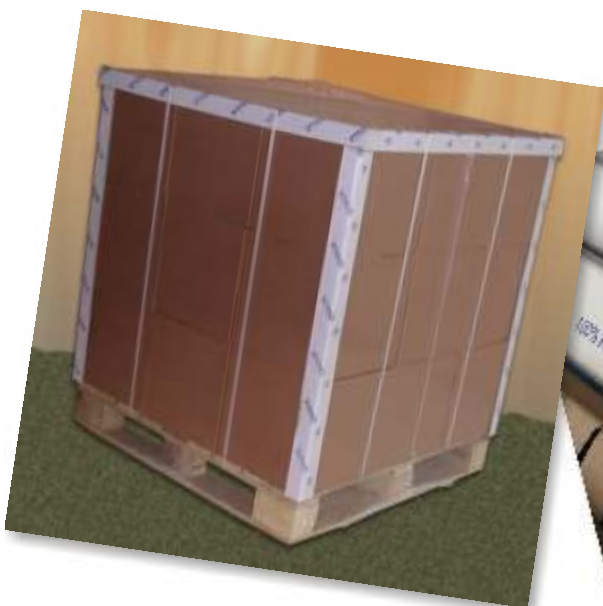

Used by top name companies year after year, VEEBOARD makes pallets more rigid for better stacking in warehouses and vehicles. It's ideal for use with stretchwrap systems, giving tighter wraps with no carton collapse, and less risk of film puncture at corners. We also offer custom made edge protection for faster, simpler assembly of protected loads.

Secure, reliable loading

Using VEEBOARD improves the handling safety of palletised loads by ensuring the integrity of the pallet and its contents. Loads are made secure, preventing movement during transit.

Wide range of applications

Applications of VEEBOARD include adhesives, automotive parts and accessories, batteries, building products, chemicals, domestic appliances, food products, glass, household items, horticultural products, joinery products, mail order goods, paper and cardboard, paints, pharmaceuticals, plastics and textiles.

WHY CHOOSE VEEBOARD?

Market leading performance

Manufactured in the UK from recycled materials, VEEBOARD can cost you far less than most types of edge protection. With a wide choice of sizes and finishes, a range of strengths and highly flexible production facilities, VEEBOARD is a widely acknowledged market leader in UK edge protection.

Flexible, fast response service

VEEBOARD offers an outstanding service to all its customers. The company has the flexibility and raw materials to manufacture substantial quantities of most products at short notice - and still offer highly competitive prices. We are also happy to discuss and develop specialist edge protection products to your specification.

Reliable delivery and keen prices

We understand that the commercial pressures on manufacturers demand outstanding responses from suppliers, which is why VEEBOARD offers fast delivery of all its products across the UK.

Availability

VEEBOARD is usually supplied in cut lengths up to 6 metres to suit customer requirements. Strapped in bundles of 50, and supplied on non returnable pallets, VEEBOARD stacks neatly together, taking up very little storage space.

We can also supply VEEBOARD custom made for your particular application. This labour saving option gives quicker, easier assembly, eliminates waste and gives improved protection.

OUR GREEN CREDENTIALS

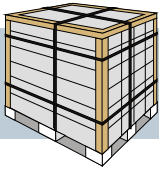

The internationally recognised symbol for a truly 'green' product. Veeboards can also be printed with our internationally recognised RESY-Licence number for customers transporting their goods into Europe.

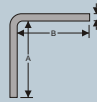

Made from recycled, unlined chipboard laminated with a special water based adhesive, Veeboards are fully recyclable by normal waste paper recovery methods.

PRODUCT SPECIFICATIONS

Pallet Edge Protectors
